

KONICA MINOLTA

CM-700d/CM-600d

State of the Art
portable Spectrophotometers
from the leader in
colour measurement
technology

10 reasons that will determine your choice!

- 1 Perfect handling and positioning on shaped and rounded samples
- 2 Large back lighted Color Display for color-data & -graphics
- 3 Wireless bidirectional Data Communication by Bluetooth® technology
- 4 Interchangeable apertures 8mm (MAV) and 3mm (SAV) (CM-700d model only)
- 5 High energy flash illumination for best repeatability on dark colours
- 6 Simultaneous SCI/SCE measurement + correlated gloss value
- 7 Unmatched inter-instrument agreement for best data compatibility
- 8 Full conformity with CIE and ISO norms for best absolute accuracy
- 9 Best inter-model agreement with CM-3600d bench-top instruments series
- 10 Free choice of power sources (Batteries, rechargeable batteries + AC) = always ready

Global coverage, competent
consultancy and services
from Konica Minolta
